I understand that working a search area with a Search Dog is not an exact science, and the pattern, duration and sequence of the search will vary depending on each search situation. If I have any suggestions, questions or concerns I will immediately discuss these with the K9 Handler. Final decisions about search pattern, duration and sequence are up to the sole discretion of the K9 Handler. **I will not interfere with the direction the Search Dog is taking at any time. _____ initial**

Clients pay for services based on the use of time, travel, expenses and efforts. For this reason, Happy Tails Pet Detective Agency does not refund fees for services rendered.

I have agreed to pay the amount of _____ for conducting this search. The search time with the K9 Search Dogs is for a maximum of _____ hours. I am making a deposit of _____ to hold the search time. If my pet is found before Pet Detective leaves for my search, I agree to immediately notify the Pet Detective on call.

I understand there is non-refundable fee which will be deducted from my deposit. This is for consultation time, a personal strategy that was discussed to help locate my pet, research time and holding the search date.

SCENT. I have been advised of several things which may affect scent, including but not limited to: Heat, time, pollutants, terrain, freshly mowed grass, cow fertilizer, exhaust, cigarette smoke, strong chemicals, chlorine, ammonia, pool acid, some urine, gasoline and most aromatic petroleum distillates.

It has been explained that a Trailing Dog is intended to follow a single scent trail from point A to point B. I understand dogs "at large" are very random travellers and do not travel in straight lines. They may double back, circle around, dart back and forth across busy streets, run up freeway ramps, or can stay in one area for a long time creating a scent pool and then move off in many directions. I have been instructed how to deal with possible sightings and that the Trailing Dog must have an exact address and/or landmark to perform scent scans to see if this was my dog. A street name or intersection will not be adequate. I understand that the Trailing Dog cannot be started at random on possible sightings.

It has been further explained that a scent detection dog will check areas indicated by the handler. This is achieved by using methods similar to that of a bomb/drug detection dog.

I agree to notify Happy Tails Pet Detective Agency if the following are present near the search areas (if known): poison ivy, dangerous debris, traps, hunters, hornet nests, heavy bee population, sticker plants, cliff edges, vicious animals, heavy brush areas with no paths and/or no sidewalks or paths near homes. By signing below, I am stating that I have read and understand this Letter of Agreement.
